Re: External Arrays for MLPA Implementation from Point Arena north to Oregon Border

Dear Task Force and Natural Resources Agency:

The Westport Municipal Advisory Council would like to provide preliminary comments on the cited topic in behalf of the citizens living in our sphere of influence from the Ten Mile River north beyond Rockport. We comprise a Council appointed by the Mendocino Board of Supervisors to convey local opinion on planning issues and other related matters.

At a meeting held February 22, 2010 the Westport MAC received public input on the MLPA process and agreed by a unanimous vote that we would like to ensure shore-based sport and subsistence fishing and intertidal resource collection is not further restricted by the MLPA process in the following critical sections of our local coastline as shown on the attached map:

1. Between 39°35'27"N (Kibesillah) and 39°36'30"N (Bruhel Point)
2. Between 39°38'04"N (south end of Westport) and 39°41'12"N (Union Landing Vista Point)

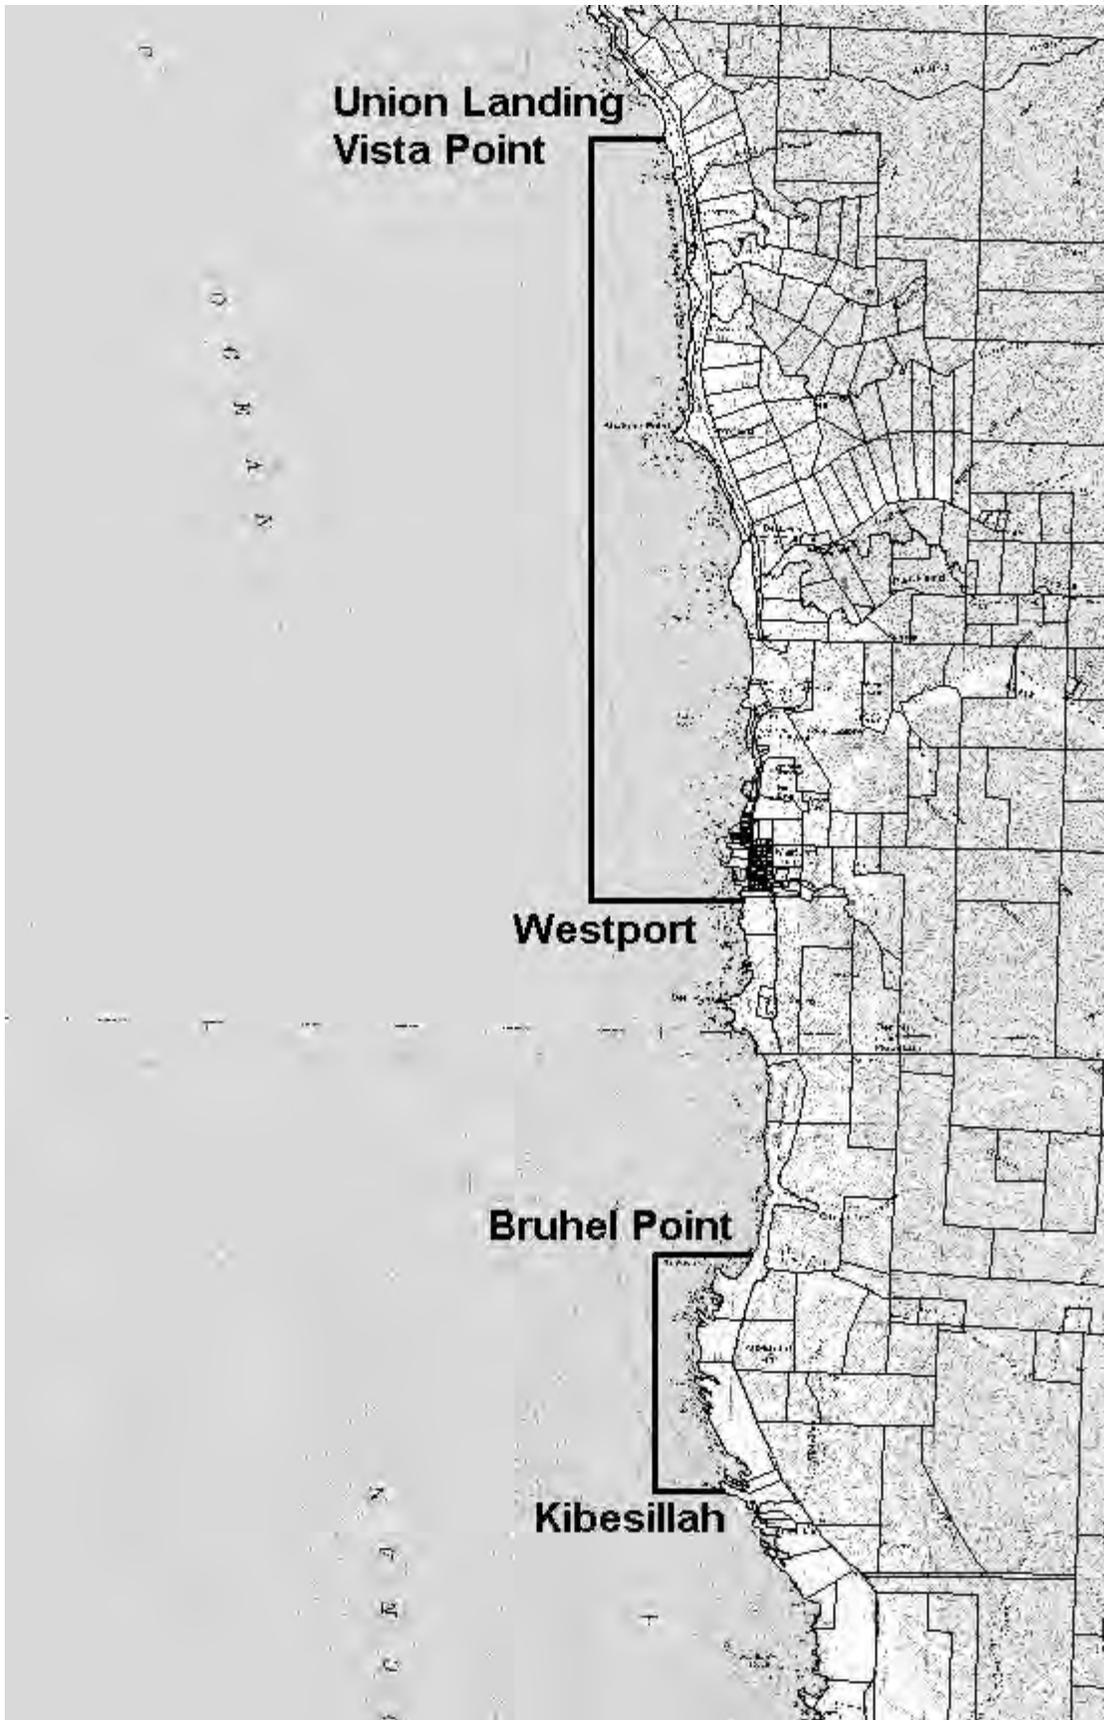

The two referenced portions of the Mendocino County coast have long been used by both indigenous and modern people for sustainable subsistence fishing and gathering other intertidal resources. Bruhel Point is the only easily accessible portion of the coast between Cleone and Westport where such activities are possible. Those traditional uses continue to the present time and should be retained not only to ensure local citizens can provision themselves; but also because that traditional access attracts visitors that help support the local economy. Local businesses such as stores, campgrounds, lodging facilities, and restaurants all depend on sport fishers for a portion of their income.

The WMAC would like to receive all future public notices and review documents that pertain to the cited process for the north coast region. We will have further comments on this process as it unfolds. Thank you for considering the views expressed here.

Sincerely,

A handwritten signature in black ink that reads "Thad M. Van Bueren". The signature is written in a cursive, flowing style.

Thad M. Van Bueren, Chairman

Westport Vicinity with traditional fishing & gathering areas shown.
